

# IMPORTANT

1. Your submitted file will only be used for information that is printed on top of your keycaps.  
For choosing the keycap colors, please use the online customizer to specify what keycap colors you want and where you want them.

2. Please remember to include all text color information in your file.  
If you want that specific text printed in white, please make it white on your file, etc...  
If you send us a file with all black text/legends, we will print it in all black.

3. We will process custom file orders without sending a preview/proof. If you would like a preview before your order is processed, please put a note in the comments or email us.

4. To avoid delays and errors in your order you must convert all of your fonts and text to vector data.  
Before saving and uploading your file: select all of your text; go to **Object > Expand...**

To remove this message and get started, please toggle the eyeball off on the "message" layer
